

Principles of Mahatma Gandhi

1. All life is one.
2. We each have a piece of the truth and the un-truth.
3. Human beings are more than the evil they sometimes commit.
4. The means must be consistent with the ends.
5. We are called to celebrate both our differences *and* our fundamental unity with others.
6. We reaffirm our unity with others when we transform "us" versus "them" thinking and doing.
